UNION DUES UNDER ATTACK
Overturning 40 years of precedent, the Supreme Court has ruled in Janus v. AFSCME that only signed-up members can help to fund unions like ours.

The billionaires who bankrolled the Janus case know that virtually every workplace standard in this country is the result of union organizing and union victories: the eight-hour day, workplace safety regulations, the minimum wage, the weekend. They want to destroy unions and undo every gain made by workers, people of color, women, immigrants, and the poor during the last half-century.

UNION POWER UNDER ATTACK
All of us benefit from the raises, benefits, job protections and better working conditions achieved by our union, the PSC. The gains are possible because everyone contributes financially to the union, enabling us to use our collective power in the workplace. It is exactly that power that is under attack.

Members of our union will soon be bombarded with glossy mailings and ads from shadowy anti-union groups. They may even knock on your door to try to convince you to “opt out” of union membership to get a few extra dollars in your paycheck. Don’t fall for it! Union membership makes us strong; it improves and protects all of our wages and benefits.

Say YES! to PSC membership
PROTECT THE GAINS against austerity at CUNY that we have made together. Defy the far-right agenda of increasing economic inequality and disempowering workers, people of color, women, immigrants, and the young.

Go to psc-cuny.org/unionyes. If you’re not yet a member, join our union. If you’re already a member, fill out the new, stronger membership card. We enjoy raises, good benefits and other gains because we fought for them together as a union. Union membership matters—perhaps more now than at any time in U.S. history.

PSC was the first public-sector union in New York State to negotiate paid parental leave.
