**No contract for five years.**

**No raises for six.**

As faculty and professional staff at the City University of New York, PSC/CUNY members provide high-quality, affordable college education to the working people of New York. We've worked six years without a raise while CUNY students have paid more tuition and CUNY has hiked pay for the University Chancellor by 49%.

CUNY Chancellor James B. Milliken hasn't put any money on the bargaining table. We're taking the fight for CUNY to the doors of his CUNY-funded luxury apartment.

**Join us in Solidarity.**
