

CUNY RESEARCH FOUNDATION CENTRAL OFFICE WORKERS DEMAND A FAIR CONTRACT!

Management at the CUNY Research Foundation is offering a low-ball average annual raise of 3.25% to Central Office workers after we've worked through COVID and almost two years of near-record inflation.

Our raises have gotten smaller and smaller, we're paying almost twice what we used to pay for health insurance, and we aren't going to take it any more!

**It's time for bosses everywhere to realize
that workers have had enough!**

What do we want?

- Raises of 4-5% per year
 - Real protection of remote work arrangements
 - Reasonable workloads
 - Better benefits
-

Tell our boss, Research Foundation President Hector Cordero-Guzman, that the RF Central Office workers deserve a fair contract.

Email him at Hector_Cordero@rfcuny.org
