

# STUDENTS OF THE WOMEN'S CENTER BULLETIN BOARD

## JOIN OUR RALLY!

On September 19th, 2023, we plan on organizing on campus to make our voices heard. Meet us in front of the Bedford Avenue Gates @12:30pm.

### WHAT DOES OUR PROGRAM COORDINATOR DO?

Nicole coordinates every event by planning the event according to budget, making sure they happen on time, set up, and clean up. She handles day-to-day operations, coordinating with speakers/guests supervising social media, marketing, training, referrals, and counseling.

Without the full time work of our Program Coordinator and Office Manager, functionality at the Women's Center will decrease by approximately **76%.**

**No more gas lighting. There is evidence that the function of the Women's Center will change.** Our summer program has already changed drastically:

The part time staff at the Women's Center are already taking turns running the program. They are not able to do the same amount of programming in their individual roles as before.

### WHAT DOES OUR OFFICE MANAGER DO?

Sherome handles financial documentation of donations, vendors, events, inventory, supplies and equipment. She maintains the office space by keeping it clean and organized. Lastly, she keeps the schedule of all Federal Work Study Student and other student staff.

We have sent letters and our petition to President Anderson of Brooklyn College and CUNY Chancellor Félix V. Matos Rodriguez. Neither have replied yet. Being ignored will not discourage us. The Women's Center is our home on campus and we will fight for it.

## HAVE YOU SIGNED OUR PETITION YET?

The staffing at the Women's Center has been put in jeopardy which puts all the valuable services offered to us students in jeopardy. This largely affects women of color on campus.
